REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The references of record do not teach or suggest a method comprising: forming a concave portion in a first surface of a semiconductor substrate, in a first region of the semiconductor substrate corresponding to the opening of the mask having a relatively narrow opening width, to allow the first region to have a thickness dimension less than that of a second, remaining, region of the semiconductor substrate; performing the perforating process using the mask provided on a second, opposite, surface of the semiconductor substrate, to form a first through-hole reaching the first surface in the second region of the semiconductor substrate and a second through-hole reaching the concave portion (claim 1, for example). The references of record do not teach or suggest a method comprising: performing the perforating process using the mask provided on a first surface of a semiconductor substrate until a first through-hole having a relatively wide width dimension reaches a second, opposite, surface of the semiconductor substrate; forming a concave portion in the second surface of the semiconductor substrate, in a region of the semiconductor substrate corresponding to the opening of the mask having a relatively narrow opening width, to allow a second through-hole having a relatively narrow width dimension to penetrate to a bottom surface of the concave portion (claim 3, for example).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
